Right now, amidst this unprecedented time, helping one another is more important than ever. As a service to our donors and the public health, we will now begin to test all collected blood for the COVID-19 antibodies. The antibody test is authorized by the U.S. FDA and may indicate if the donor’s immune system has produced antibodies to the coronavirus, regardless of whether they developed symptoms. We recognize that individuals and public health organizations desire more information about COVID-19, and as an organization dedicated to helping others, the Red Cross is fortunate to be able to help during this pandemic.

Due to social distancing standards we highly recommend making an appointment for this drive. You can make your appointment by calling at 1-800-RED CROSS (1-800-733-2767) or go to www.redcrossblood.org and enter sponsor code: UAPD
